

Application No. 10/760,378  
Amendment dated: June 25, 2004

**Remarks/Arguments**

In the submission of the application, Figures 10 and 11 were superimposed on Figure 9, obscuring portions of Figure 9 and giving drawing sheet 6/12, as filed, the appearance of having the label "Figure 9" in the middle of Figures 10 and 11.

The Appendix to this amendment includes replacement figure 9, 10 and 11 to satisfy the requirement for replacement figures set out in the Notice of Missing Parts.

Figure 9 is described in the specification as filed as a side view of the insert shown in Figure 6. Figures 7 and 8 are described as being the top and bottom views of the same insert (see Brief Description of the Drawings, paragraph [0012] as submitted). The insert and these figures are described in paragraph [0019]. Elements referred to in the description of paragraph [0019] are labelled on Figure 9 and correspond to the elements labelled in Figure 6, 7 and 8.

Applicant submits that with the corresponding front, top and bottom views of Figures 6, 7 and 8, in addition to the description of paragraph [0019], one skilled in the art would be able to reconstruct Figure 9, as submitted herewith, without reference to external information. As a result, Applicant submits that no new matter has been added by way of this amendment.

Applicant further submits that the replacement figures comply with 37 CFR 1.84 and 37 CFR 1.121, and the requirement for replacement drawings in the Notice of Missing Parts has been satisfied.

Respectfully submitted,
